

CHIU WAN TING'S Report About SBT2014

SBT 2014 is my best experience short-term exchange on abroad. Though sometimes we were on hills with rocks or grass, I was thinking that why I didn't choose an easier camp!?! But everything is worth to see amazing landscape. With bikes we can view more than by buses or on feet. The most beautiful thing I saw in Switzerland are all the members of SBT2014. Switzerland is my favorite country now.

I love the weather and fresh air there. Except for the rainy day!!

The amazing mountains are too magnificent to be seen.

I like the color of the river! We always climb mountains to reach the restaurant on the top~

We're entering into the woods again and again~~~

It's cool and a little dangerous to cross the woods but I love it after the tour and now I miss them so tight! I would like to do 100km every day with all hills because I really want to bike with all the SBT and kind guiders!

We were on newspaper~~~

We were really tired! See we're all on the ground. We did 76km that day.

I will miss this bike and helmet forever!!! I miss them now~~~

Best swimming experience in lake with Vinz!!!

I love biking and dancing~ I love to dance on the grass and with glorious mountain background. I would like to dance for all the SBT 2014 again! Show them how much I miss them now~

Mountains and me~~~

I took this picture while I went jogging! It was happiness to jog with fresh air and light from heaven!

I'm the shortest girl they always want me to be down on the ground~
